

DAY-8

MONGODB

CONNECTION:

URL: <https://app.workato.com/connections/14351655>

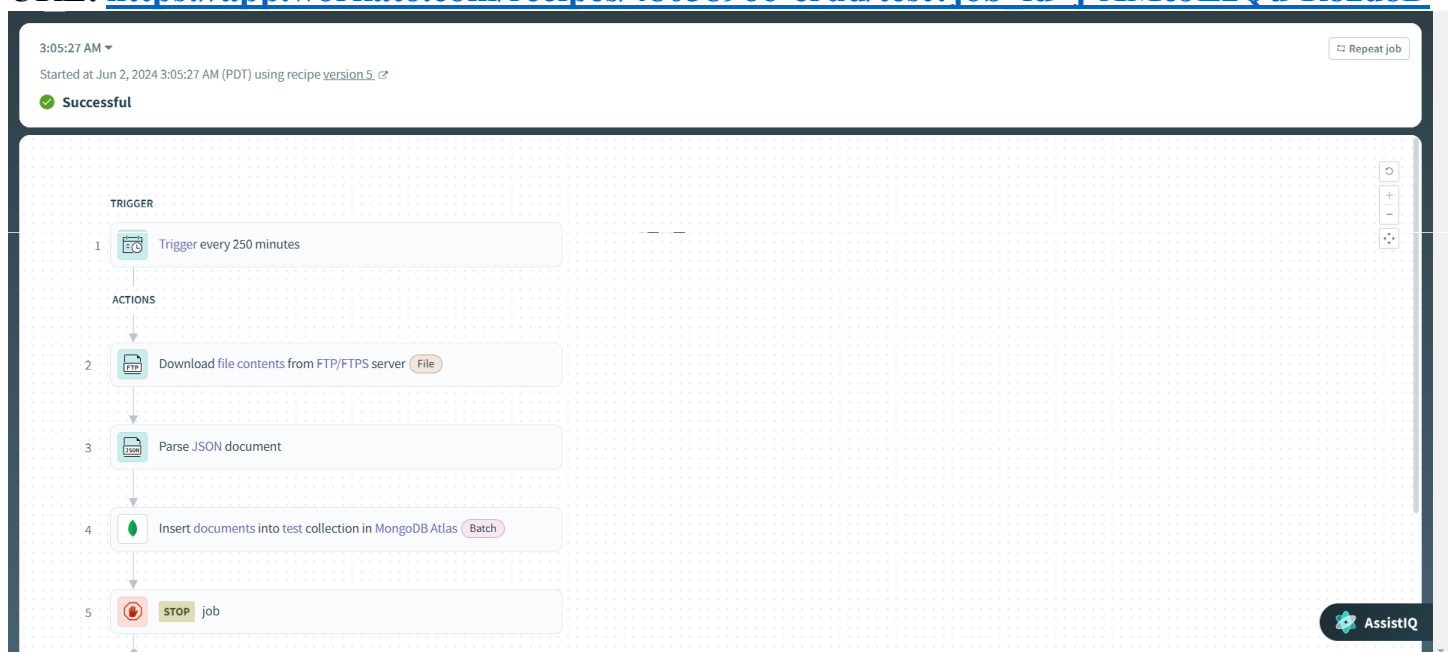

The screenshot shows the 'My MongoDB Atlas account' connection configuration page in Workato. The page is titled 'My MongoDB Atlas account' and includes a 'Delete connection' button. The configuration fields are as follows:

- Connection URI:** A text field containing 'mongodb+srv://pendyalarsha00:H%40rsh%4004@harsah.edw1d5L.mongodb.net/'. Below it is an example: 'mongodb+srv://cluster0.3ba1t.mongodb.net. Learn more'.
- Database name:** A text field containing 'test'. Below it is a note: 'Case sensitive name of the database'.
- User name:** A text field containing 'pendyalarsha00'.
- Password:** A password field with a masked password '*****'.
- Advanced settings:** A section with a 'Show' button.

On the right side, there is a 'Connected' status indicator. Below it, the 'Location' is 'mongodb', and the 'Connected' status is 'In a few seconds'. The 'Created' time is 'Thursday at 8:19 PM'. The 'Dependencies' section shows 'Not used by any recipe'. The 'Latest activity' section shows 'Edited by P.Harsha Vardhini A few seconds ago' and 'Connected by P.Harsha Vardhini A few seconds ago'.

CREATE:

OUTPUT:

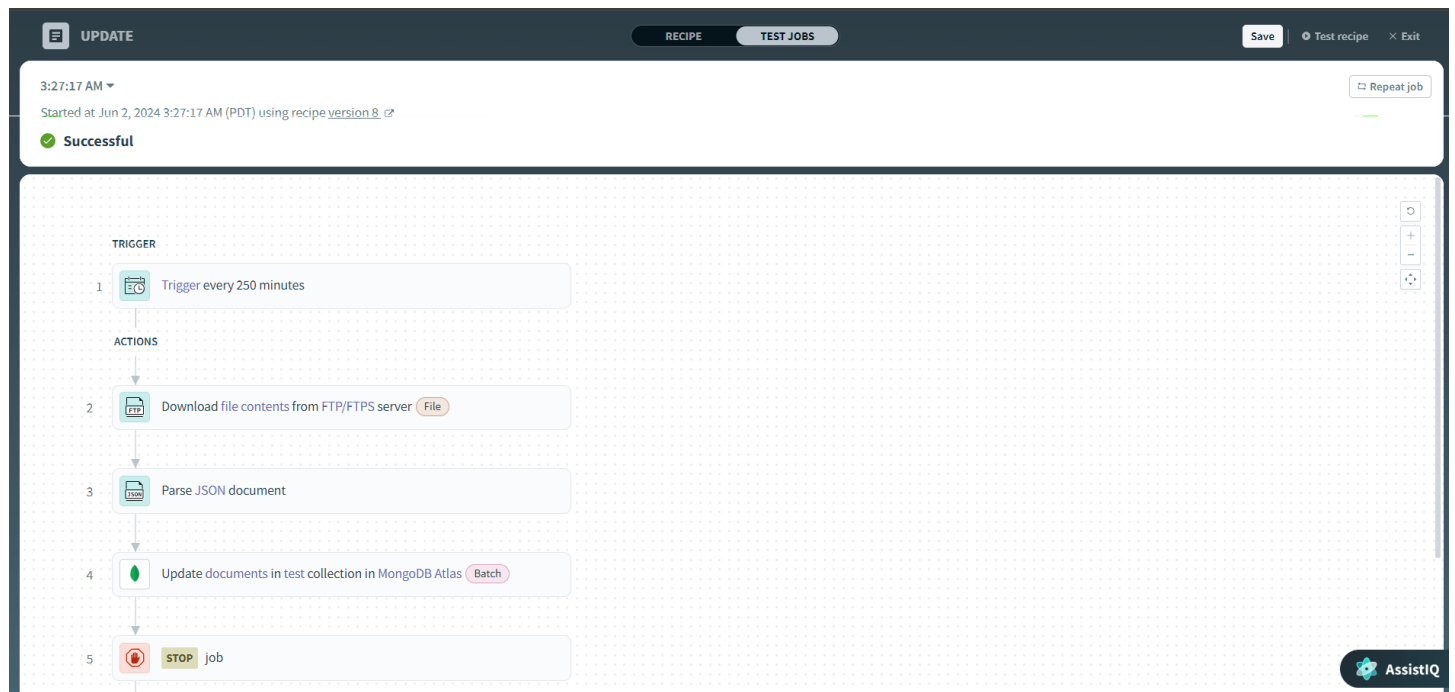

The screenshot shows the MongoDB Compass interface. On the left, the 'Databases' sidebar lists 'admin', 'config', 'local', 'pendyalaharsha00', 'sample_mflix', and 'test'. The 'test' database is selected, and the 'test' collection is highlighted. The main panel shows the 'Documents' tab with a single document displayed:

```
{
  "_id": ObjectId('665c43ec1413c6e48d9496d9'),
  "EMPid": "6744",
  "Employee": "Harsha",
  "City": "HYD"
}
```

Below the document, there are buttons for 'ADD DATA', 'EXPORT DATA', 'UPDATE', and 'DELETE'. The 'UPDATE' button is highlighted. The top bar shows the query editor with a placeholder query: '{ field: 'value' }' or 'Generate query'.
